

CPIT-220 MID 21

السؤال الأول:

عرف ال Information Technology

السؤال الثاني:

بيعطيك رسمتين وحدة لل digital ووحدة لل analogue وعليهم نقاط محددة ويطلب منك تكتب اساميها
وسؤال إضافي: عرف التردد

السؤال الثالث:

اذكر الفروقات بين ال digital و ال analogue

السؤال الرابع:

- A. What is the Digitization?
- B. Mention the steps of digitizing analogue information?
- C. Mention FOUR advantages of digital technology over analog system?

السؤال الخامس:

بيعطيك جدول في مصطلحات وتعريفاتهم ويطلب منك توصل بينهم
اللي جتنا:

- 1- Blog
- 2- Browser cache
- 3- Web browser
- 4- Portal
- 5- Spiders
- 6- HTML
- 7- TCP/IP
- 8- FTP

السؤال السادس:

- A. Differentiate between the Internet and the Web?
- B. List the four phases of a Machine Cycle to execute instructions in the program?

السؤال السابع:

What is the Operating System? And list basic functions of Operating System?

السؤال الثامن:

Define the following terms with regards to operating system?

- A. Paging
- B. File manager
- C. Multitasking
- D. Backup

السؤال التاسع:

Q1/ How long would it take to download a 300 second audio over a 64Kbps. Assuming that the file is sampled at 40KHz using a 16-bit ADC?
How to reduce download duration?

Q2/ Discuss why it is important for the sampling rate to at least twice the signal's bandwidth?

السؤال العاشر:

صح وخطأ

- 1- Speaker is an electric device that used to convert sound wave to digital wave.
- 2- Complex sound is made up of number of pure sounds components.
- 3- Audio compression can reduce the download duration.
- 4- Error control is accomplished by applying extra bits prior to transmission at the transmitting end.
