

عددي؟

3 forms and reports usability characteristics:

- 1- speed
- 2- accuracy
- 3- satisfaction

عددي وعرفي كل واحد؟

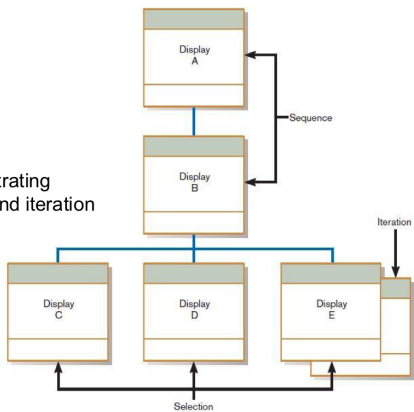

Three sections of the box are used as:

- 1. *Top* contains a unique display reference number used by other displays for referencing it.
- 2. *Middle* contains the name or description of the display.
- 3. *Bottom* contains display reference numbers that can be accessed from the current display.

Draw dialogue diagram illustrating sequence, selection, iteration?

(Cont.)

Dialogue diagram illustrating
sequence, selection, and iteration

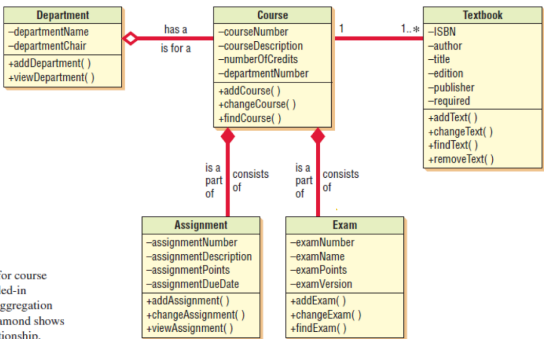

عددي ٢ class diagram operations

- 1- constructor
- 2- query
- 3- update
- 4- scope

Draw class diagram for (department, course, textbook, exam) at least 2 attributes and 2 methods with the multiplicity and relationships?

FIGURE
A class diagram for course offerings. The filled-in diamonds show aggregation and the empty diamond shows a whole-part relationship.

Draw sequence diagram for flight reservation given a scenario?

اللي أتذكره من السيناريو وما أتوقع انه كامل وصح ١٠٠٪ ممكن يكون فيه شي ناقص :

اليوز يدخل اليوم والرحلة والسيستم يعرض له كل الرحلات اللي في اليوم

بعدين اليوزر يختار الرحلة اللي في ساعة محدده مثلا الساعة ٨

والسيستم يعرض له المقاعد حقت الطائرة

اليوزر يختار مقعد محدد مثلا رقمه ١١

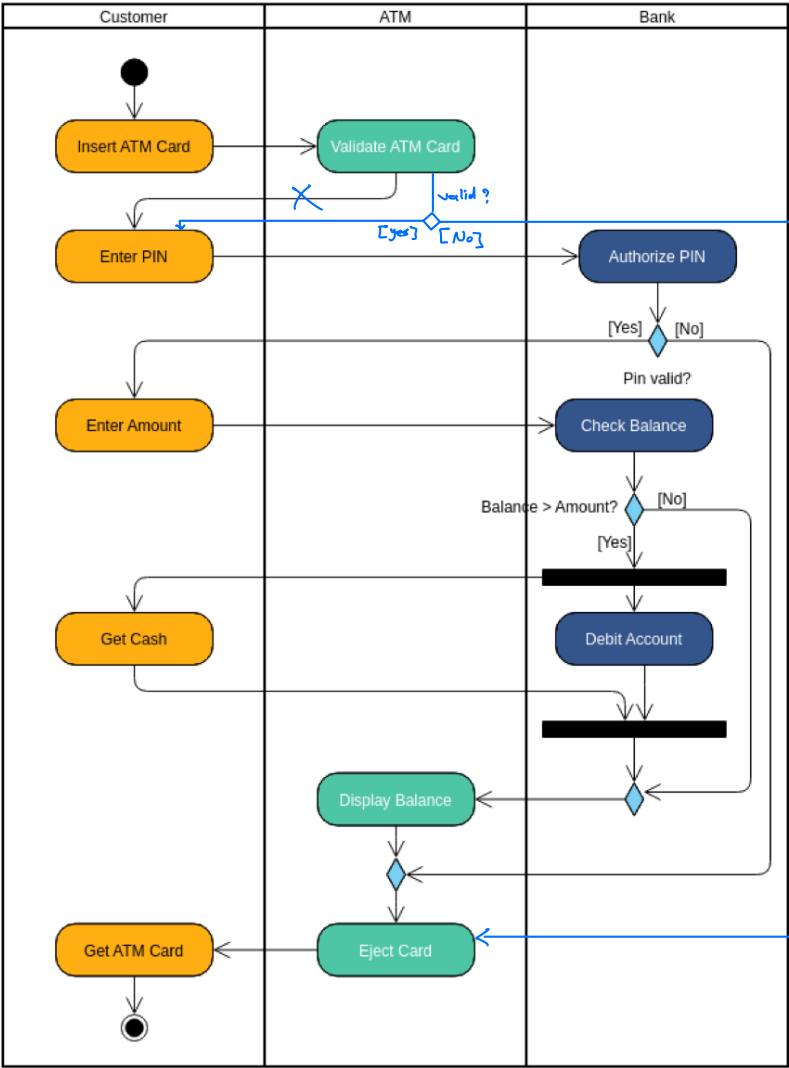

والسيستم يشيك إذا المقعد متوفر أو لا

حطت حالة وحدة انه يكون متوفر يعني true

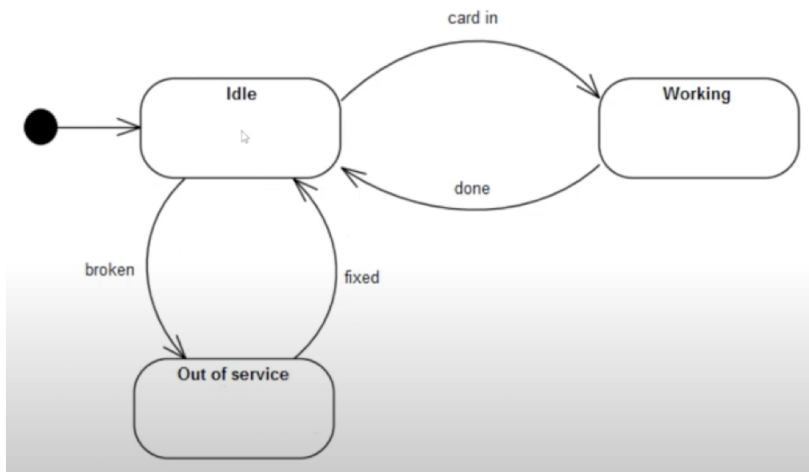

راح يتم الحجز وينعرض لليوزر reservation confirmed

Draw activity diagram for ATM machine with a given scenario?

With extra condition: if the card in not valid eject the card

Draw state diagram with given scenario?

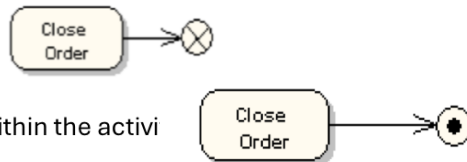

What is the difference between the two final nodes in activity diagram, and draw them in activity diagram example?

Final Node: There are two types of final node:

1. The activity final node is depicted as a circle with a dot inside.
2. The flow final node is depicted as a circle with a cross inside.

The difference:

- the flow final node denotes the end of a single control flow;
- the activity final node denotes the end of all control flows within the activity

What are the sequence diagram components? عددي

1-lifeline

2-massage

3-objects

4-activation

Redraw the poorly defined form for pine valley?

No column labels

Single column for all types of data

Pine Valley Furniture

Help Prior Screen Exit

Numeric data are right justified

Match each term and its definition.

External	Where you model the context or environment of the system	Structural	Where you model the organization of the system or structure of the data that is processed by the system
Interaction	Where you model the interaction between a system & its environment, or between the component of the system	Behavioral	Where you model the dynamic behavior of the system and how to responds to events

3 types of system feedback?

1- status information

2-promoting cues

3-error/warning messages

Fill the blank mcq :

1- *Key-indicator*: provides summary of critical information on regular basis

2- Abbreviations Use abbreviations and acronyms only when they are widely understood by users and are significantly shorter than the full text.

T,F

1- in sequence diagram :

Generic form shows all possible sequences of interactions – sequences corresponding to all the scenarios of a use case.

Instance form shows the sequence for only one scenario.

2- Actors and classes or object instances are shown in boxes along the top of the diagram.

Good luck 🍀
