 - a. True
 - b. False

القسم الثاني:

Q1/ Why is it important to use system analysis and design methodologies when building a system?

Q2/ An organizational approach (to systems analysis and design) is driven by methodologies, techniques, and tools. Define the terms methodology and technique.

Q3/ Define the System Development Life Cycle phases i.e., Planning, Analysis, Design, Implementation, and Maintenance.

القسم الثالث:

Define and explain at least two techniques of the following SDLC phases.

- 1- Planning Phase Techniques
- 2- Analysis Phase Techniques
- 3- Design Phase Techniques
- 4- Implementation Phase Techniques
- 5- Maintenance Phase Techniques

القسم الرابع:

Define and provide examples

- 1- General-Purpose SW
- 2- Customized SW
- 3- Information System
- 4- System SW
- 5- Application SW
